Purpose
The purpose of developing a website with interactive games and exercises for language learning is to provide an engaging, fun, and effective way for users to learn new languages. By incorporating gamification and interactive tools, the platform aims to enhance user motivation, improve retention, and facilitate practical language skills through an immersive experience.
→ Game-Based Learning – Fun, educational games (quizzes, puzzles).
→ Interactive Exercises – Fill-in-the-blank, sentence building.
→ Progress Tracking – Visual progress bars, achievements.
→ Personalized Paths – Adaptive difficulty levels.
